In December 2009 *Passport to the Internet* was honoured by the MEDEA Awards in the 'Highly Commended' category.

Passport to the Internet, an Internet literacy tutorial, helps students in Grades 4 to 8 develop the critical thinking skills they need to apply to their online experiences by enabling them to use popular online tools and Web sites in a secure and ethical manner, and to their full potential.

Using simulations of the most popular Internet environments, this interactive resource teaches students key skills relating to:

- online safety
- authenticating online information
- recognizing online marketing ploys
- protecting their privacy
- managing online relationships
- dealing with cyberbullying

PASSPORT TO THE INTERNET INCLUDES:

- an interactive online tutorial
- an extensive Teacher's Guide with detailed instructions, backgrounders, and classroom activities and handouts
